

Section of Plant Pathology & Plant-Microbe Biology (Ithaca)
School of Integrative Plant Science
Fall 2017 Seminar Series

Date	Speaker & Affiliation	Title	Host
September 13	Krista Giglio USDA-ARS Cornell University	"Transcriptome profiling provides insights into the mechanisms of Promysalin, an intragenus-specific antibiotic with activity against <i>Pseudomonas</i> "	Melanie Filiatrault
September 20	Jim Bradeen University of Minnesota	"Borrowing from neighbors: leveraging comparative genomics for improved plant disease resistance"	Marc Fuchs/Chris Smart
September 27	Kathryn Bushley University of Minnesota	"Genomics of insect pathogenic fungi"	Gillian Turgeon
October 4 Plant Science 404 12:20 PM	SIPS Seminar Hailing Jin University of California, Riverside	"Cross-Kingdom RNAi and RNA trafficking in plant pathogen interactions"	SIPS Seminar
October 11	Carolee Bull Penn State University	"Translational taxonomy of bacterial diseases"	Penelope Lindsay
October 18	Maria Harrison Boyce Thompson Institute Cornell University	"Arbuscular mycorrhizal fungi: living off the fat of the root"	Greg Martin
October 25	Molly Cadle-Davidson Chief Science Officer Advanced Biological Marketing	"Trichoderma, the Phytobiome and the challenge of translating science to the field."	Melanie Filiatrault
November 1	No seminar		
November 8 Plant Science 404 12:20 PM	SIPS Seminar James Brent Loy University of New Hampshire	"The incredible wealth of genetic variation: Impressions from 50 Years of cucurbit breeding"	SIPS Grad Students
November 15	Washington da Silva Exit Seminar PPPMB, Cornell University	"Understanding host-virus interactions: the key to management of an evolving Potato virus Y epidemic"	Stewart Gray
November 22	No seminar	Thanksgiving Break	
November 29	Emerson Del Ponte Federal University of Viçosa	"Meta-approaches for analyzing large scale data networks to improve plant disease management"	Gary Bergstrom
December 6	Jason Stajich UC Riverside	TBA	Whetzel Westcott Dimock

Wednesdays, 12:20 PM
H.H. Whetzel Seminar Room
404 Plant Science Bldg.
PLPPM 6810
