| March 7   | John Jones  
James Hutton Institute, Scotland | “Genome evolution in plant-parasitic nematodes”                       | Xiaohong Wang               |
| March 14  | Laurent Noel  
CNRS in Toulouse                    | “Revisiting the immunity of hydathodes, forgotten leaf organs infected by vascular Xanthomonas” | Zoe Dubrow                 |
| March 21  | Roger Innes  
Indiana University Bloomington       | “Extracellular vesicles as key mediators of plant-microbe interactions” | Whetzel Westcott Dimock     |
| March 28  | No seminar                                | Spring Break                                                          |                             |
| April 4   | No seminar                                | Spring Break                                                          |                             |
| April 11  | David Baltrus  
University of Arizona            | “Microbiomes inside of microbes: Exploring a symbiosis between fungi and facultative endohyphal bacteria” | PPPMB GSA                  |
| April 12  | Dr. Peter Wyse Jackson  
Missouri Botanical Garden             | “How botanic gardens are countering the global loss of biodiversity” | SIPS Seminar (Rakow)       |
| April 18  | Megan Daniels  
PPPMB Exit                                 | “Bad apples: a new disease and its impacts, farm to food”             | Kathie Hodge                |
| April 25  | Milton Drott  
PPPMB exit                                 | “Understanding balancing selection for aflatoxin production in *Aspergillus flavus*: insects, soil microbes, and population structure” | Michael Milgroom            |
| May 4     | Bob McIntosh  
University of Sydney, Australia          | “Recollections on 60 years of wheat rust research”                    | Maricelis Acevedo           |
| May 9     | Frank Van Breusegem  
Ghent University, Belgium                     | “Oxidative stress signaling in plants. Towards the proteome and beyond” | SIPS Seminar (van Wijk)     |

Wednesdays, 12:20 PM  
H.H. Whetzel Seminar Room  
404 Plant Science Bldg.  
**PLPPM 6810**
