

Section of Plant Pathology & Plant-Microbe Biology (Ithaca)

School of Integrative Plant Science

Spring 2019 Seminar Series

| Date | Speaker & Affiliation | Title | Host |
|--|--|--|--|
| February 6 | Mariko Alexander <i>PPPMB Exit Seminar</i> | "Application of cross-linking proteomics to viruses in the <i>Luteoviridae</i> " | Michele Heck |
| February 13 | | | |
| February 20 | Michael Fulcher <i>PPPMB Exit Seminar</i> | " <i>Fusarium graminearum</i> ecology at the intersection of wheat and wild grass communities" | Gary Bergstrom |
| February 26 Tuesday BDF101, 2pm | Susan McCouch <i>Plant Breeding, Cornell</i> | "A feeling for the organism" | SIPS Symposium Chris Smart |
| March 6 | Marin Brewer <i>University of Georgia</i> | "Population biology of emerging fungal pathogens of plants and people" | Michael Milgroom |
| March 13 | Bill Fry <i>PPPMB, SIPS</i> | "Will the real <i>Phytophthora infestans</i> please make itself known?" | Alan Collmer |
| March 20 | Ksenia Krasileva <i>UC Berkeley</i> | "The evolution of plant immune system" | PPPMB GSA |
| March 27 G10 Biotech, 12:20pm | Joe Ecker <i>Salk Institute</i> | "Epigenomics of Neuron Diversity and Connectivity in the Mammalian Brain" | Genome Biology Initiative Adam Bogdanove |
| April 3 | No seminar | Spring Break | |
| April 10 | Andrew Miller <i>University of Illinois</i> | "Digitization and data sharing of fungal specimen metadata through the MyCoPortal " | Kathie Hodge |
| April 17 | Enrico Coen <i>John Innes</i> | "Resolving Conflicts: The Genetic Control of Morphogenesis" | SIPS Plenary Adrienne Roeder |
| April 24 | Alan Collmer <i>PPPMB, SIPS</i> | "Four decades of probing plant-pathogen interactions: From pieces to the rules of the game" | Whetzel Westcott Dimock Gillian Turgeon |
| May 1 | Jon Gonzalez <i>PPPMB Exit Seminar</i> | "Exploring the evolutionary history of the <i>Cochliobolus heterostrophus</i> <i>Tox1</i> locus responsible for T-toxin production and the Southern Corn Leaf Blight Epidemic of 1970" | Gillian Turgeon |
| May 8 | Sarah Johnson Ruark <i>PPPMB Exit Seminar</i> | "Molecular Epidemiology and Host Range of Potato virus Y" | Stewart Gray |
| May 15 | Carolina Mazo Molina <i>PPPMB Exit Seminar</i> | "Molecular characterization of bacterial speck disease resistance from <i>S. lycopersicoides</i> against race 1 strains of <i>Pseudomonas syringae</i> pv. tomato" | Greg Martin |

Wednesdays, 12:20 PM
H.H. Whetzel Seminar Room
404 Plant Science Bldg.
PLPPM 6810
